

IN THE SPECIFICATION:

Please insert the following on Page 1, line 5 (below the title):

--CROSS-REFERENCE TO RELATED APPLICATION

This application is a divisional of U.S. application Serial No. 09/564,617, filed May 4, 2000.--

LISTING OF THE CLAIMS:

Claims 1-10 (Cancelled)

11. (Original) A media identifier comprising:

a first, media identifier module interprets what form of media a person used to perform a function;

a second module to tell the difference between a command or a data generation identification, wherein after the data is sent through the first module, the data are sent to the second module where the commands are interpreted, and wherein if the data are identified as data that generates new data, the data are labeled in a third, data labeler module; wherein the data labeler labels data according to whether they have a link or not; if the data has a link, the data are processed as a link data;
